---

## EDUCATION

---

### Syracuse University

*Bachelor of Science, Computer Science*

**Anticipated Graduation: May 2025**

*Syracuse, NY*

- Engineering and Computer Science Dean's List
- **Related Coursework:** Data Structures, Application Programming for Information Systems, Advanced Front End Web Design, Programming Language: Theory & Practice, Systems and Network Programming, Software Specification and Design, Introduction to Analysis of Algorithms

## SKILLS

---

- **Programming:** Java, Python, SQL, HTML5, CSS3, JavaScript, Bash, Z-Shell
- **Tools:** Visual Studio Code, IntelliJ, Git, GitHub, MySQL, Microsoft Office 365

## PROJECTS

---

### Diary App

**Jan. 2023**

*Flask, SQLAlchemy, HTML, CSS, JavaScript*

- Developed a personal diary application using Flask, implementing CRUD functionalities
- Designed a responsive and modern UI with HTML and CSS, and incorporated interactive features using JavaScript, such as a dynamic theme switch

### To-Do List Application

**Dec. 2023**

*Python, Tkinter, MySQL*

- Created a To-Do List application using Python with a graphical user interface developed using Tkinter
- Utilized a MySQL database to enable dynamic addition, removal, and viewing of tasks
- Implemented error handling and user-friendly alerts with Tkinter's messagebox module to enhance the user experience

## WORK EXPERIENCE

---

### Allied Risk Management

**Oct. 2022 – Aug. 2023**

*Security Guard*

*New York, NY*

- Monitored the movement of employees, visitors, and other individuals to ensure the security of the premises
- Conducted regular patrols to identify and respond to suspicious activities to mitigate potential security threats
- Executed vertical and perimeter patrols, to ensure the safety and security of the premises

### Syracuse University

**Sep. 2021 – May 2022**

*Facilities Worker*

*Syracuse, NY*

- Collaborated in the movement of heavy classroom materials to ensure efficient setup for lectures and events
- Completed various tasks, including assembling furniture, carrying heavy objects to offices, and responding to phone calls promptly
- Utilized equipment such as hand trucks, flatbed carts, and dollies to safely transport equipment and furniture to minimize the risk of damage or accidents

## LEADERSHIP/EXTRACURRICULAR

---

- **Clubs:** National Society of Black Engineers, ColorStack, Innovate Orange, Information Security Club
